North Texas Female College

Kidd-Key Conservatory of Music Sherman, Texas

In soliciting the patronage of parents for the coming year, the management of the North Texas Female College and Kidd-Key Conservatory of Music fully realizes the critical attitude of parents and understands quite well that it is incumbent on the institution to show what it has achieved and hopes to achieve and why it deserves support and patronage.

In selecting an institution, one of the first considerations should be location. We ask where you could find one better than Sherman, a City of culture and supplied with the best artesian water. The College is only three blocks from the business part of the City, making it very accessible, and yet we enjoy complete privacy. This institution is a Junior College with an A plus standing, giving first grade certificates good for four years without examination and admitting our graduates to the Junior Class in our Universities. Our Conservatory has long been recognized as the best in the Southwest. We feel very proud of the fact that Miss Ethel Rader, in the contest at Houston, in competition with pupils from the best teachers including one who had studied for two years with Oscar Saegle, received the vocal scholarship offered by the State Federation of Music Clubs; Miss Dorothy Achenbach received (by unanimous vote) the scholarship offered by the Federation in the piano contest at Dallas, the best teachers in the State having pupils in the contest. Miss Jewel Wurtsbaugh received the gold medal offered by the State Federation of Woman's Clubs for the best short story-one institution receiving practically all the honors offered by these two Federations.

Last summer we completed a new dormitory, built a splendid Natatorium, remodeled our Auditorium and added a finely equipped Domestic Science Department. For the coming year we have added a teacher of athletics-a young woman trained for the work in one of the best Universities of the country. We have also added a department of stenography and type-writing. This College has always tried to instill the principles of refinement, gentleness and culture and to make the pupils feel that here they have a second home. We have just closed one of the most successful years in the history of the College.
